Roman Mil

Full-Stack

Summary

I am passionate about personal growth, possess strong self-organization skills, and engage in analytical thinking. I actively address my mistakes and adeptly utilize objective criticism. I have years of experience in responsible positions, and excel in teamwork. I am enthusiastic about sharing my knowledge with colleagues and assisting them. I aspire to become a future frontend developer, as I am proficient in HTML, CSS, SCSS/SASS, JavaScript, Node JS, Express, MongoDB and React methodologies, and can adeptly apply them. In team projects I successfully performed a role of scrum master.

Project Experience

Bookshelf [Link](#) [HTML/CSS, Animate.css, Java Script, Axios, Firebase, Notiflix, Swiper]

Rolle: Scrum-Master, blok-Modal Window.

The ability to navigate the site using the header, footer, and burger menu
